26<sup>th</sup> February 2018

Dear Parents

The weather forecasts are indicating that there may be significant snow over the next two nights and snow showers throughout the week. I would like to take this opportunity to inform you of our procedures in the case of snow.

Our school always tries to remain open, so when bad weather is known about in advance, students and parents must plan for a safe and longer journey time, and if we have remained open we would prefer pupils to arrive late rather than not at all.

Science

Please assume that the school **will be open as normal** unless you hear to the contrary.

Engineering

**In the event that the school has to close** notification would be made to parents via a Schoolcomms text and email as well as on the school's website. We will try to make a decision to close as early as possible in the day knowing that that some pupils have to travel long distances to school. Any notification of a school closure is for that day only; it must be assumed we will be open the following day unless notified otherwise.

If the school has to close, teachers will provide work for students either via Google Classroom or alternatively by email to the students' school accounts. This will be in line with each student's normal timetable for the day. Every pupil should know how to access Google Classroom and it is an expectation that any work set will be carried out.

If on a day we open the weather significantly deteriorates and we have to make an early closure, the school will notify parents via a text message through Schoolcomms. In this event, pupils will be allowed to contact their parents by mobile phone to agree where they should go and how to get there. Pupils who can travel home easily will be allowed home or some pupils may go to a friend's home with their parent's permission. We will also be in contact with the bus and coach companies, so will be aware of any changes to timetables. Pupils may be allowed to stay at school, if possible, but there may only be limited supervision.

"Supporting Excellence in Education"

Yours sincerely

Dr Paul Hayman
